## SKILLS

Ruby on Rails  
JavaScript  
jQuery  
ReactJS  
HTML  
CSS  
NodeJS  
Git / GitHub  
AJAX /API Calls

## EXPERIENCE

### WEB DEVELOPER • ARTS LAB • FEB 2018 – MAY 2018

- Improved perceived app speed with animated page transitions to create an enjoyable user experience.
- Led development to replace aging web app with Ruby on Rails version, which improved actual page load speed and performance.
- Prototyped and implemented new UI and user registration features which increased admin efficiency to manage the blog online.
- Authored input validation to improve information security.

### WEB DEVELOPER • DIOFITNESS • SEPT 2017 – JAN 2018

- Built an ecommerce web app to sell products as well as increase company sales and brand recognition.
- Optimized file merging to reduce diminishing page speed and functionality.
- Full stack engineer who led the development and architecture of both the client-side view and server-side databases.
- Concisely translated technical details to non-technical managers, which allowed them to save money by making more educated decisions.

### OTHER EXPERIENCE
